Skills

I have a very good experience with Linux and Windows OS' with a good knowledge of bioinformatic and several computational biology tools.

I use Bash, R and Python every day. Other known programming languages are Java, C/C++/C#, JavaScript, PHP, HTML, SQL and .NET framework.

During the laboratory trainee activities in my BSc and MSc I acquired some molecular biology related skills and during my internship at the Waldron Lab I acquired statistical and basic epidemiology skills.
